

## Welcome to the UK's No 1. Web Hosting Service For Internet Entrepreneurs

**YOU SAID** you wanted a no-nonsense, straightforward and simple hosting package - **well, here it is!** Here are all the tools you'll need - and the tips, tricks, techniques and templates - to create websites that rock and get the money rolling in!

**From: The desk of Nick James, leading UK Internet entrepreneur**

Dear Entrepreneur,

**I WANT YOU TO SUCCEED** with all of your web businesses ... just as I have. Isn't that a great starting point for us to begin a long-term and thoroughly profitable relationship?

A relationship that **puts tons of money in your pocket!**

But first of all, you need a great "website" - Your **internet shop window** that tells everybody what you do and what you offer. A website that once set up works for you effortlessly 24/7 without ever sleeping, complaining, taking time off sick (or asking for a pay rise). Your most loyal servant constantly there for you ready to show customers your products, take enquiries and orders. Doesn't that sound like the best type of employee ever? Well here's your chance to get one!

**Push Button Hosting** will enable you to create **powerful websites quickly and easily** with a simple 'point-click-and-finish' toolkit.

**Absolutely anyone can do it!**

In a jiffy, you'll be able to **create, design, develop, manage, automate and promote** your own money-spinning website - or as many websites as you need - with our simple, on-the-spot, all-done-in-one-go web hosting solution!

Push Button Hosting **gives you everything you need.** You don't have to:

- **Buy** any expensive software programs!
- **Learn** the dark arts of web wizardry!
- **Master** any complex programming tools
- **Install** any brain-tangling scripts!

In fact, you don't even need a product to create a website that works and that makes you money!

In a matter of minutes and a lot less than a couple of hours, you can have a website that has all the latest marketing tools and is fully e-commerce enabled with its own shopping cart and credit card payment process. All of it ready to go!

**Why are we doing this?** *To stop you wasting your time and your money, or both!*

**unlike any other web hosting package**

You've probably already searched everywhere for the "right" webhost ... only to be continually disappointed and repeatedly let down.

**Why don't "they" ever deliver all that they promise?**

And most of them don't, won't and can't! Because they are either:

- "Entry level" websites that enable you to produce cheap looking online stores that are impossible to change, adapt or improve.
- "Dedicated server solutions" that rip the soul out of your business with exorbitant costs and features that only an expert knows how to use.
- "Out of the box" web solutions that look exactly like that - free gifts straight out of a cereal box!

Or you find what you think is the perfect hosting solution, *only to discover that you have to spend huge amounts of time and loads more money to make the thing work the way you want it to.*

And as soon as you've succeeded, everything changes again, requiring yet more time, even more money and probably a whole new toolset too!

**And where's the support when you need it?**

Usually, it's nowhere to be seen!

Aren't you fed up with dancing round the moon?

**So, stop it!**

**push button hosting is different!**

Put your trust in a **Push Button Hosting** solution and *put your business where it belongs - right out in front of everyone!*

**isn't this just one amazing hosting package?**

**Yes, it is** and what's even more amazing is that the whole package - everything - is yours **for an incredibly low £14.95 per month!**

**That's less than 50 pence per day! You can't even buy a half decent coffee for that!**

Got a website already? **Simple - it's ever so easy to transfer it (we'll even walk you through the process!)** and that means you can take advantage of our amazing hosting offer right now, today. So much value and so very little for you to worry about - **EVER!**

In less than 5 minutes you can have all of these dazzling features and all of our easy hosting simplicity working for you. Deal?

**An offer you simply cannot refuse.**

Despite all this, and because I am so eager for you to discover how incredibly easy-to-use and robust Push Button Hosting really is - And how it can both automate and increase your Internet business profits... I'd like to make you an offer you simply can't refuse.

**Try Push Button hosting for a whole month for just £1.** Once you have experienced Push Button Hosting for yourself, I know you will never want to use another webhost again, ever. That's how confident I am.

**Full Satisfaction Money Back Guarantee**

In the unlikely event that you are not completely satisfied with all that you receive from us. For your complete peace of mind, you are also covered by our unique full money back guarantee. Requests for this are extremely rare, however, if you feel that Push Button Hosting is not for you for ANY REASON WHATSOEVER and you don't wish to continue - simply let us know - and we'll refund you in full immediately - No questions asked.

To receive this outstanding special offer, simply enter the following unique discount code into the 'shopping cart' when you order and check out. Your discount will automatically be calculated before you finalise your account creation request.

Special Discount code = **PBHSPPECIAL**

Best Wishes,

Nick James
